REPORT OF THE BOARD OF SELECTMEN

To the Citizens of Cohasset:

The Board of Selectmen met at its usual time on Wednesday evenings throughout the year, as well as on numerous other occasions with various boards and committees necessary for the orderly functioning of town government. Its Chairman also over-saw administrative functions on a daily basis thus providing continuity between meetings.

The year has been one of concern for the rising cost of energy and its effect upon departmental operations. The board introduced several articles at the 1980 annual meeting dealing with energy conservation measures in certain town buildings. The recommendations were wisely accepted by the Town Meeting thereby permitting implementation by the board prior to the current heating season. Reduced energy consumption is already evident, but unfortunately with little dollar gain due to the rapid escalation of unit costs.

Police Chief Randolph A. Feola retired after a long, distinguished career in the service of the town, rising through the ranks from patrolman to chief. His successor, Chief John A. DeBassio was appointed by the board after a thorough search through scores of applicants by an impartial search committee selected from interested citizens of the town. Chief DeBassio assumed charge toward the end of the current year but has already introduced many new policies aimed at overall departmental effectiveness and efficiency. The Selectmen will continue to work closely with the chief to encourage the spirit of professionalism throughout the department, to which he is dedicated.

The November ballot referendum question on so-called "Proposition 2½" which became law at the close of the period, had little effect upon current operations but became the focal point of discussion and of utmost concern in the preparation of departmental budgets for the upcoming fiscal year. The ultimate impact upon Cohasset could be profound, although possibly less so than in some communities. It comes as no surprise to the board having opposed it on the basis of its adverse effect on town services. Nevertheless, everything possible will be done to carry out the will of the electorate while maintaining a reasonable level of needed services.

The board extends its thanks to all officials, boards, committees, employees and citizens for their continued support, understanding and cooperation throughout the year.

Respectfully submitted,

Arthur L. Clark, Chairman
Henry W. Ainslie, Jr.
Rocco F. Laugelle

Article 3 voted by a hand vote, yes, 325 to no, 69.

Article 4. To see if the Town will vote to instruct the Board of Selectmen to petition the General Court of the Commonwealth of Massachusetts to enact legislation under Massachusetts Constitution Amendment Article 97 approving the transfer of the care, custody, management and control of a parcel of land, hereinafter described, to be used as a site for a sewage treatment plant and accessories and appurtenants thereto from the Board of Selectmen and or the Conservation Commission to the Board of Selectmen for a sewage treatment plant and accessories and appurtenants thereto.

Said parcels being located Southwesterly of land owned by the Penn Central Railroad and being shown as Lot 2 on a plan drawn by Edwin A. Young, Surveyor, dated July 3, 1962, as modified and approved by the Land Court, filed in the Land Registration office as No. 31695A, a copy of a portion of which is filed in the Norfolk Register District with Certificate 74557, Book 373 and shown on a deed recorded in Norfolk Registry of Deeds in Book 5007, Pages

524 and 525 to which plan and deed reference is hereby made for a more particular description of said parcels. Said parcels are also shown on a plot plan of Proposed Sewage Treatment Facility which plan is on file in the office of the Town Clerk, or act on anything relating thereto.

MOVED: That Board of Selectmen be instructed to petition the General Court of the Commonwealth of Massachusetts to enact legislation under Massachusetts Constitution, Amendment Article 97 approving the transfer of the care, custody, management and control of a parcel of land, hereinafter described, to be used as a site for a sewage treatment plant and accessories and appurtenants thereto from the Board of Selectmen and or the Conservation Commission to the Board of Selectmen for a sewage treatment plant and accessories and appurtenants thereto.

Said parcels being located Southwesterly of land owned by the Penn Central Railroad and being shown as Lot 2 on a plan drawn by Edwin A. Young, Surveyor, dated July 3, 1962, as modified and approved by the Land Court, filed in the Land Registration office as No. 31695A, a copy of a portion of which is filed in the Norfolk Register District with Certificate 74557, Book 373 and shown on a deed recorded in Norfolk Registry of Deeds in Book 5007, Pages 524 and 525 to which plan and deed reference is hereby made for a more particular description of said parcels. Said parcels are also shown on a plot plan of Proposed Sewage Treatment Facility which plan is on file in the office of the Town Clerk.

Article 4 voted by a voice vote.

Article 5. To see if the Town will vote to instruct the Board of Selectmen to petition the General Court of the Commonwealth of Massachusetts to enact legislation authorizing the Town, notwithstanding the provisions of Section 15A of Chapter 40 of the Massachusetts General Laws, to transfer, by a two-thirds vote at a regular or special Town Meeting, the care, custody, management and control of a parcel of land not to exceed 10 acres to be used as a site for a sewage treatment plant, hereinafter described, from the Board of Selectmen for school purposes to the Board of Selectmen for a sewage Treatment Facility.

Said parcel of land being located Southwesterly of land owned by the Penn Central Railroad and bounded by land of the South Shore Playhouse Assoc. and Smith Place, which land was acquired in accordance with Article 7 or the Special Town Meeting held on December 3, 1969 and is shown on Town Assessors Plan No. 39 and on a plot plan of Proposed Sewage Treatment Facility which plan is on file in the office of the Town Clerk, or act on anything relating thereto.

MOVED: That this article be indefinitely postponed.

Article 5 voted by a voice vote.

Article 6. To see if the Town will vote to raise and appropriate a sum of money to take by eminent domain under Chapter seventy-nine of the General Laws as amended or acquire by purchase of otherwise, including provisions of Chapter 83 of the General Laws, for a sewage Treatment Facility on area con-

taining 3.5 acres more or less, said property being shown on plot plan of proposed Treatment Facility, Whale Meadow Site, September, 1979, on file at the Town Clerk's Office.

Said parcel of land being a part of Parcel E2, Plot 16, as shown on Assessors Map 31.

Said parcel of land being bound as follows: Beginning at the intersection of the Howard Gleason Road northerly sideline and the easterly sideline of a twenty foot way through Plot 16; then running northerly for a distance of approximately 580 feet along said easterly sideline of way; then turning and running easterly for a distance of approximately 270 feet parallel to Howard Gleason Road to the property line of Plot 13; then turning and running southerly along said property line for a distance of approximately 590 feet to the northerly sideline of Howard Gleason Road for a distance of approximately 280 feet to the point of beginning; or act on anything relating thereto, and to meet said appropriation to the Treasurer, with the approval of the Board of Selectmen, is authorized to issue notes or bonds in accordance with Massachusetts General Laws Chapter 44, section 7, or act on anything relating thereto.

MOVED: That this article be indefinitely postponed.

Article 6 voted by a voice vote.

Article 7. To see if the Town will vote to approve the Board of Selectmen entering into an Agreement for Judgment in the action brought by the Commonwealth of Massachusetts under the provisions of the Massachusetts Clean Waters Act to abate pollution of the Waters of the Commonwealth and for the assessment of a civil penalty, the case being Thomas C. McMahon, as he is Director of the Division of the Water Pollution Control of the Commonwealth of Massachusetts, Plaintiff vs. Town of Cohasset, Defendant, Norfolk Superior Court No. 38652, whereby the Town agrees to pay a civil penalty in the amount of \$10,000.00 due to the allegation that the Town exceeded its discharge permit issued by the Director of the Division of Water Pollution Control of Massachusetts and in accordance with the provisions of the Federal Water Pollution Control Act as to waste water flow gallons per day, as to biochemical limitation, as to discharge of suspended solids and as to discharge of settleable solids; and whereby the Town agrees to design and construct secondary waste water treatment facilities in accordance with a time schedule approved by the Board of Sewer Commissioners; and to see if the Town will vote to appropriate from Surplus Revenue (free cash) the sum of \$10,000.00 to pay said civil penalty, or act on anything relating thereto.

MOVED: That the Town approve the Board of Selectmen entering into an agreement for Judgment in the action brought by the Commonwealth of Massachusetts under the provisions of the Massachusetts Clean Waters Act to abate pollution of the waters of the Commonwealth and for the assessment of a civil penalty, the case being Thomas C. McMahon, as he is director of the Division of the Water Pollution Control of the Commonwealth of Massachusetts, Plaintiff vs. Town of Cohasset, Defendant, Norfolk Superior Court No. 38652, whereby the Town agrees to pay a civil penalty in the amount of \$10,000.00 due to the

allegation that the Town exceeded its discharge permit issued by the Director of the Division of Water Pollution Control of Massachusetts and in accordance with the provisions of the Federal Water Pollution Control Act as to waste water flow gallons per day, as to biochemical limitation, as to discharge of suspended solids and as to discharge of settleable solids; and whereby the Town Agrees to design and construct secondary waste water treatment facilities in accordance with a time schedule approved by the Board of Sewer Commissioners; and agrees to appropriate by borrowing or otherwise the necessary funds to effectuate the above and that the Town appropriate from Surplus Revenue (free cash) the sum of \$10,000.00 to pay said civil penalty.

Article 7 voted by a voice vote.

Article 8. To see if the Town will vote to raise and appropriate the additional sum of \$295,000.00 to supplement the appropriation of \$265,000.00 voted by the Town under Article 23 of the Annual Town Meeting, March 3, 1973 as amended by Article 29, Annual Town Meeting, May 6, 1974 and as further amended by Article 2 of the Special Town Meeting, October 31, 1974, so that a total of \$560,000.00 is appropriated for working plans and specifications for a system of main drains and for common sewers, interceptor sewers, street service connections, other connections, and other works including but not restricted to the modification of or increase in the capacity of the sewage treatment plant to be located as may be required to extend the existing system of sewerage, drainage and sewage disposal in and to each or any of the areas shown as Phase 1 on a plan entitled "5-2 Town of Cohasset Recommended Limits of Public Sewerage" dated May, 1979, which plan is included in the Metcalf and Eddy Engineering report entitled "Facilities Plan for Waste Water Management dated May 31, 1979", to which plan reference is hereby made for a more particular description of said area; and to meet the supplemental appropriation, the Treasurer with the approval of the Board of Selectmen is authorized to borrow \$212,639.59 in accordance with Massachusetts General Laws, Chapter 44, Section 7, Clause 22 and that the sum of \$81,800.00 be appropriated from Federal Funds received in accordance with the Federal Water Pollution Control Act of 1972 as amended; and that the balance of \$560.41 be appropriated from surplus revenue, or act on anything relating thereto.

MOVED: That the Town raise and appropriate the additional sum of \$295,000.00 to supplement the appropriation of \$265,000.00 voted by the Town under Article 23 of the Annual Town Meeting, March 3, 1973 as amended by Article 29, Annual Town Meeting, May 6, 1974 and as further amended by Article 2 of the Special Town Meeting, October 31, 1974, so that a total of \$560,000.00 is appropriated for working plans and specifications for a system of main drains and for common sewers, interceptor sewers, street service connections, other connections, and other works including but not restricted to the modification of or increase in the capacity of the sewage treatment plant to be located as may be required to extend the existing system of sewerage, drainage and sewage disposal in and to each or any of the areas shown as Phase 1 on a plan entitled "5-2 Town of Cohasset Recommended Limits of Public Sewerage" dated May, 1979, which plan is included in the Metcalf and Eddy Engineering report entitled "Facilities Plan for Waste Water Management dated May 31, 1979", to which plan reference is hereby made for a more particular description

of said area; and to meet the supplemental appropriation, the Treasurer, with the approval of the Board of Selectmen, is authorized to borrow \$212,639.59 in accordance with Massachusetts General Code Chapter 44, Section 7, Clause 22 and that the sum of \$81,800.00 be appropriated from Federal Funds received in accordance with the Federal Water Pollution Control Act of 1972 as amended; and the balance of \$560.41 be appropriated from Surplus Revenue, and further that this appropriation be subject to approval by the General Court of the Commonwealth of Massachusetts of the transfer of the aforesaid land from Conservation use to the Board of Selectmen for a sewage treatment plant and accessories and appurtenants thereto.

AMENDMENT TO ARTICLE 8

MOVED: That the Motion on Article 8 be amended to add to the last sentence the following words, "and further that expenditure of this appropriation of \$560,000.00 be under the control of the Board of Sewer Commissioners elected on April 12, 1980".

Amendment defeated by a voice vote.

Article 8 Voted by a hand vote, yes, 216 to no, 27.

MOVED and voted unanimously by a voice vote at 11:30 P.M. that this meeting be dissolved.

This Act shall take effect upon its passage.

And it is further moved that if the General Court of Massachusetts enacts said act then the Board of Selectmen shall adopt the following rules and regulations:

(A) The Board of Selectmen shall remain the appointing authority for both newly hired recruits and promotions within the department and may promulgate rules and regulations governing same.

(B) Whenever a vacancy occurs within the department, a public notice of same shall be published at least twice over a two-week period in a newspaper generally circulated in the town and a date shall be set for applicants to submit their resumes.

(C) The Board of Selectmen and the Chief of Police shall screen all applications and select at least five (5), or all if less than five (5) apply, for personal interviews to be conducted in accordance with Chapter 30, Section 11A of the M.G.L.'s. (so called "Open Meeting Law").

(D) Applicants shall be required to consent to verification, by the appointing authority, of all data contained in their applications and resumes, as well as, any potential court records.

(E) Appointees shall be selected by majority vote of the appointing authority on the basis of education, training and experience if any in the law enforcement or security fields.

(F) Prior to appointment, successful applicants shall be required to pass physical and psychological examinations by doctors designated by the appointing authority with fees paid by the town.

(G) Starting on the day of employment, newly hired recruits shall serve a six-month probationary period during which time they shall have no right to appeal in the event of discharge with or without cause.

(H) In the event of disciplinary action by the appointing authority after the probationary period, such proceedings shall be conducted in open session subject to aforesaid Chapter 30A, Section 11A of the M.G.L.'s. Notice that such action is being taken shall be mailed to the employee's last known address by registered mail at least three (3) days prior to holding a hearing.

(I) Any decision by the appointing authority to suspend an employee without pay for a period in excess of thirty (30) days, including discharge, shall be appealable to the Personnel Committee within five (5) days after mailing of notice of the appointing authority's decision to the employee. The Personnel Committee's majority decision after a public hearing, shall be final and binding upon the parties.

There shall be an executive secretary to the Selectmen who shall be appointed by the Board of Selectmen and who shall serve at the discretion and pleasure of the Board. The executive secretary to the Selectmen shall be a person especially fitted by training or experience in municipal administration to perform the duties of the office, and shall meet such other requirements as the Board of Selectmen may specify. No elected member of the Board of Selectmen may simultaneously serve as such a member and as executive secretary to the Selectmen. The executive secretary to the Selectmen shall be compensated in such manner and amount as the Selectmen shall determine, provided, however, that the appropriation required for such position shall be approved by the Town meeting. It shall be the duty of the executive secretary to the Selectmen to see that the orders and policies of the Board of Selectmen are carried out. He shall make investigations, reports and recommendations with regard to such matters as the Board of Selectmen may require, and shall supervise the

preparation of the annual town report. He shall receive, investigate, and answer complaints directed to the Board of Selectmen or refer them to the proper department, departments, boards, or committees for attention. He shall participate in the preparation of budgets for those departments, the heads of which are appointed by the Board of Selectmen. He shall recommend to the Board of Selectmen and with its approval to the Advisory Committee any changes he deems desirable in the budgets which are submitted by these and other departments. He shall deal with such administrative problems and shall perform such other related duties and services as the Board of Selectmen may from time to time assign to him.

The initial appointment of an executive secretary shall be made by the Board of Selectmen following the 1981 Annual Town Meeting, or act on anything relating thereto.

MOVED: That Article III, Section 2. Selectmen, of the Town By-Laws be amended by inserting the following:

ARTICLE 44.

(Inserted by the Committee to Survey the Structure of the Town Government, William D. Weeks, Chairman.)

To see whether the Town will vote to amend Articles III and V of the Town By-Laws as follows:

a. To amend Article III, Section 2 (k) (iii) by adding the words at the end thereof, “except as provided in Article V, Section 17 of these By-laws”; and

b. To amend Article V, by adding thereto a new section 17 which shall read as follows: “17. Whenever and at such time or times as a building facility of substance is proposed for the Town and any funds are approved by a Town Meeting for expenditures relating thereto, a Facilities Committee shall be appointed, which committee will be charged with the responsibility of submitting to the Town at the earliest possible date detailed recommendations with respect to the specific facility to be studied or constructed. Such Facilities Committee will also have responsibility for and supervision of the planning, design, site selection and construction of any facility approved for construction and delivery of the facility so constructed to the appropriate Town Department.

Each Facilities Committee will, in order to ensure its effectiveness and to make it broadly representative of the Town as a whole, consist of nine members, selected as follows: One member each from the Board of Selectmen, Advisory Committee, Planning Board, Capital Budget Committee and the Town Department to be affected by the facility to be constructed, and four members to be selected from the Town at large. All members of each Facilities Committee shall be appointed by the Chairman of the Board of Selectmen, the Chairman of the Advisory Committee, and the Town Moderator. Such sums as the Town Meeting shall determine shall be provided for the use of each Facilities Committee to enable it to defray its necessary expenses incurred in the fulfillment of its responsibilities. Nothing contained in this section shall be construed to usurp the authority of a committee or agency charged by statute with the responsibility to oversee the planning or construction of any municipal facility”; or act on anything relating thereto.

ARTICLE 55.

(Inserted by the Board of Selectmen, Arthur L. Clark, Chairman — Citizens Petition.)

We the undersigned request the following By-Law be enacted in the 1980 Town Meeting in the Town of Cohasset, Mass. according to Chapter 40A of the General Laws of the Commonwealth. Add A (section) under the heading of (Business Variance).

1. As provided by statute, the Board of Appeals may authorize a Business Variance in any zoned district with respect to a particular building, structure, proposed building or structure or parcel of land after a duly advertised public hearing, held within 65 days after filing of an application with the Board of Appeals and Town Clerk. A Business Variance may authorize a use not otherwise permitted in the zoned district in which the proposed or present structure or land is located subject to conditions set forth.

- (A) The applicant must obtain on a written petition, signatures of the majority of land owners within 500 feet of said property.
- (B) The applicant must submit a full explanation of intent, specifying the type of proposed business, the expansion into other directly related fields in conjunction with the business.
- (C) Submit drawings specifying floor area of structure and proposed long range expansion of same, drawings showing front, sides, and rear elevation, dimension of present or proposed building or buildings and a plot plan of said land.
- (D) The proposed building or buildings and present buildings must conform to Section 5 Area Regulations 5.1, 5.2.1, 5.2.2, 5.2.4, 5.2.5, 5.2.6, 5.2.7, and 5.2.9, deleting 5.2.8 of the 1978 Bylaw.
- (E) The present building or buildings or proposed building or buildings must conform to Section 5.3 and 5.4 of the 1978 Bylaw.
- (F) If the Applicant requires a Variance with their proposal to any of the 1978 Bylaws, the Applicant must apply for this under (Section 11.5 Variance) and clearly state this on the original application to land owners within 500 feet, and the Board of Appeals on the original application for a Business Variance.

2. The Board of Appeals will consider the Applicants request and within (10) days forward the Applicants' request and data to the Board of Health, Planning Board and the Conservation Commission for action on same.

3. The Boards and Commission have (30) days to act and submit their findings to the Board of Appeals in writing.

4. If the Board of Health, Planning Board and Conservation Commission do not file their reports to the Board of Appeals within (30) days, then the Board of Appeals has full authority to act upon the Applicants' request.

5. The Board of Appeals must act on the Application within (65) days of the Applicants' petition duly filed with the Town Clerk. Failure to do so would grant the Applicant their petition as submitted, and henceforth certified by the Town Clerk.

6. The Board of Appeals has the authority to apply any section of the 1978 Bylaws granting a Business Variance as they see fit.

7. Any person or persons within 500 feet of said application or the Applicant aggrieved by the decision of the Board of Appeals, Planning Board, Board of Health or Conservation Commission may appeal to Norfolk County Superior Court for further decision by said Court, within (30) days of the Board of Appeals' findings.

8. If an appeal is not registered within (30) days, then it is accepted as written by the Board of Appeals and certified by Town Clerk forthwith.

REPORT OF THE PLANNING BOARD

The Planning Board activities for January 1980-81 can be statistically summarized in the following table:

Development approved:

- 1 Subdivision creating 8 new lots
- 24 Form A's (subdivisions with street frontages not requiring approval of Planning Board) creating 121 new lots
- 7 Site plan approvals for business development.

Permit Fees from developers collected:

For subdivision and site plan fees — \$1170.00
(This is the first full year of this fee schedule.)

Town Meeting Articles: April 16, 1980

- #25 and #26 Upgrading zoning standards for Downtown Business — Passed
- #27 and #28 Upgrading zoning standards for Highway Business — Failed to pass.
- #29 Standards for Common Drives — Passed.
- #30 Funds for topographical mapping — Passed.

The Board accepted with regret the resignation of Leavitt Goodwin, and welcomed Patrick Plante to the Board.

Respectfully submitted,

REPORT OF THE POLICE CHIEF SELECTION COMMITTEE

The Selectmen's appointment of John A. DeBassio as the Town's new Chief of Police completed a process which began in the 1978 Town Meeting. By vote of the Town, the appointing authority named five citizens to the Police Chief Selection Committee. After a process involving research and consultation by committee members, a public hearing, and meetings with the Selectmen, Chief Feola, and Town Counsel, the committee undertook the search for a new Chief of Police. Advertisements in police professional journals with national circulation elicited more than 225 requests for application forms; a total of 121 completed applications, together with supporting documents, were read by each member of the committee. Of the nine highly-qualified applicants interviewed by the committee, the names of three persons judged by the committee to be most highly qualified and appropriate for the job were forwarded to the Selectmen on May 28. From among those three, of course, Chief DeBassio was hired by the Selectmen.

The Police Chief Selection Committee, having completed its task, now requests dissolution by the Town. We are unanimous in congratulating Cohasset's new Chief of Police, as we were in commending him to the community. His support, both within and outside the Police Department, represents a step forward by the community.

ANNUAL REPORT OF THE SOUTH SHORE MOSQUITO CONTROL PROJECT FOR 1980

Submitted, herewith, is a report of the South Shore Mosquito Control Project for 1980.

The Project is a year round operation of ten adjoining communities cooperating in a joint effort to reduce mosquitoes. The Project comprises the City of Quincy and the nine towns of Braintree, Cohasset, Duxbury, Hingham, Hull, Marshfield, Norwell, Scituate and Weymouth. These communities cover an area of approximately 170 square miles, serving a population of near 250,000.

The Project was established in 1953 under a Massachusetts General Law, Chapter 252. The Project communities are in a voluntary membership. The Project's policy is set and administered by a board of commissioners, one appointee from each community and from this number, a chairman is elected. The State Reclamation Board are the overseers of the operation and the administrators of the funds and purchasing. The Project is supervised by a superintendent appointed by the Board of Commissioners.

This report covers the period from November 1, 1979 to October 31, 1980, beginning in the late fall when the Project's crews busied themselves in the cleaning of the silt, sand, grass growth and other obstruction reducing water flow from stagnant water mosquito breeding sites.

WINTER — The weather, for the second year in a row, remained open, a little snow with cool but mostly fair days. This allowed more than the normal amount of days to be spent on water management projects on the salt marshes and inland water swamps. Walking surveys were conducted along the many drainage ditches installed on the salt marshes and where the flow of water was blocked or restricted by sand, silt, shale or grass. These were removed to allow a maximum flow — referred to as "reclaiming ditch."

The clearing of blocks and obstructions of brooks and streams in the upland wet areas was done — referred to as "brushing."

During the inclement days, overhauling and maintenance of spray and other operational equipment was performed in preparation for the active mosquito season. The time and expense for the maintenance of the Project's vehicles and equipment has increased considerably as it becomes older and worn and cannot afford to be replaced.

SPRING — April to June — The early spring activities were divided between water management projects and the mosquito larvae checking. By the dipping of spring thaw water pools, the Project is able to determine the amount of larvae and the location of the areas needed to be treated. The breeding sites are noted on maps to be used in aerial spray operations and the post treatment check of results.

The absence of winter snows and dry conditions of the spring reduced the amount of acreage needed to be treated by aircraft.

SUMMER — July to September — Shortly after the completion of the aerial spray operation, the salt marsh mosquitoes, as well as other species, started emergencies. The mist sprayers were put into service adulticiding in the areas of mosquito complaints. This past season an "Ultra Low Volume" cold fog insecticide unit was put into service. This U.L.V. unit is a relatively new conception of adulticide fogging, whereby no heat is used, but small insecticidal droplets are reduced to small micron units for disbursement over a much larger controlled area. It was quite successful where the unit was used, however, if it is to be completely utilized in a project of this size, two to four more units must be used.

The number of trained personnel was kept to a bare minimum this season due to a funding cutback. This made the larvae checking and larvaciding a quite limited operation. The fact that drought conditions kept the mosquito breed down, saved many areas from a great many mosquitoes that would have normally been about.

The Project participates annually in two other spray programs. These include the control of Greenhead Flies and Midges. The season being hot and dry favored the Greenhead Flies of the salt marshes. Fixed wing aircraft for Greenhead Flies and a helicopter for Midges were employed to apply both a larvacide granular and an adulticide spray for these two pest insects. These operations complement the mosquito control operation.

STATISTICS:

Mosquito larvaciding — checked 3671 acres by dipping water for larvae counts, treated 562 acres for the control of mosquitoes in the larvae stage, expending 1438 man hours.

Aerial treatment by helicopter and fixed wing aircraft — treated 12,315 acres both in larvaciding and adulticiding, expending 300 man hours. This also includes Greenhead Fly and Midge treatment.

Mosquito adulticiding — treated 12,441 acres with a mobile powered unit, fogger and sprayer, also some back pack units, expending 1939 man hours.

Mosquito larvaciding and adulticiding with mobile powered unit — 2201 storm catch basins and roadside drains were treated, expending 139 gallons of insecticide and 90 man hours.

WATER MANAGEMENT

A walking survey was made of 26,650 feet of drainage ditches, creeks, brooks and streams to determine what needs to be done to drain or increase the flow of stagnant water that in turn would reduce the number of mosquitoes this would produce.

To flush or drain off stagnant water, 2450 feet of new ditch was constructed on tidal waterways.

To maintain ditch work previously constructed, 110,300 feet of marsh ditching was reclaimed.

To maintain the flow of water at its maximum, 82,125 feet of brooks, streams and "tap" ditches were cleaned of silt, sand, shale, growth and other obstructions that might block or impede water flow.

The brushing (cutting) and clearing of 13,000 feet of growth was done. The purpose of this was for access of personnel and equipment to accomplish water management projects or to allow inaccessible areas to be checked and sprayed for mosquito larvae.

In water management, 2870 man hours were expended.

The maintenance of all equipment and the garage area is required by all personnel. This includes the preventive as well as breakdown maintenance of all spray equipment, vehicles, tractors and garage property, the cleaning and storing of all equipment and chemical materials and the setting up preparations for all operations in the field. 2435 man hours were expended on Project maintenance.

Vacation time — The average length of time in service of Project's personnel is over 20 years, most having the maximum vacation time allowed. 640 man hours were expended on personnel's vacations.

Sick days are accumulative at 12 days per year. 280 man hours were expended on personnel's sick time.

All main holidays are paid by the Project. 460 man hours were expended on holidays.

During the summer season the Project received 1742 request calls for spray service. Of these, approximately 1720 were answered in one manner or another, by adulticiding or larvaciding.

Twelve commission board meetings were held during the year.

The insecticides used by the Project were three:

1. Abate 4E for mosquito larvaciding at the applied rate of .03 of a pound actual to the acre.
2. Fenthion 4E for mosquito larvaciding in storm catch basins at applied rate of .002 of pound to a basin.
3. Malathion 57 E.C. for mosquito adulticiding at applied rates of 0.5 to .20 of a pound per acre.

The Project wishes to extend its appreciation for the services, assistances and courtesies extended to it from the Board of Commissioners, town officials and any other members of the community throughout the past year.

REPORT OF THE HARBOR DEPARTMENT

The annual report of the Harbor Department is one of progress in many areas for the best interest of the boating public and commercial fishermen.

1. The completion of a new breakwater installed at Bryants Point out to the first Dolphin gives good protection to the boats in the Yacht Club area and the commercial boats that moor there during the winter months.

2. The installation of three new Dolphins marking the channel was completed. Sheet piling was used instead of wooden piles. It is believed that they will stand up better under the adverse ice conditions that prevail where they are located.

3. The purchase of the 17' Boston Whaler, the efforts of the personnel assigned to the Harbor Patrol and the cooperation of the Police Department produced the best results in years in curtailing vandalism and theft.

4. It is hoped by the Department, if the red tape on behalf of the Environmentalists can be complied with, that the dredging project scheduled for Lawrence Wharf will be completed before the fiscal year ends.

5. Again it becomes necessary for people who have boats in the harbor to comply with Harbor By-Laws. Those on the waiting list should reaffirm their intent to put a boat in the harbor and follow waiting list procedures.

6. The passage of Proposition 2½ reinforces the rule that mooring fees must be paid by June 1st of a calendar year. If the fee is not paid, the mooring will be removed and reassigned to a person on the waiting list.

It should also be mentioned that every effort will be made by the Department to give the best services possible within the scope of the cuts in the budget.

Again my personal thanks to the Harbor Department Personnel. My thanks also to the Highway, Tree and Park, Water, and Wire Departments who have willingly assisted whenever called upon, and my continued appreciation of the good inter-department cooperation I have always experienced.

Respectfully submitted,

Harry H. Ritter, Harbormaster

REPORT OF THE SEALER OF WEIGHTS AND MEASURES

The various weighing and measuring devices in the Town of Cohasset have been carefully tested; seventy-four were sealed.

The amount of \$265.20 was collected for sealing fees and paid to the Treasurer.

Items in retail stores were checked for unit price.

Respectfully submitted,

Lot E. Bates, Sealer

REPORT OF THE DOG OFFICER

Submitted herewith is the report of the dog officer for the year ending December 31, 1980.

I received 881 calls at my home, of these calls 362 were pertaining to complaints, 402 were pertaining to lost or found dogs, and 117 were pertaining to general information.

All complaints were investigated. Again, I urge all dog owners to license their dogs as required by law and to display the license tag on their dogs.

Respectfully submitted,

John H. Barrett
Dog Officer

REPORT FROM THE BOARD OF HEALTH

The appointment of Dr. Charles Michael Bliss, due to the resignation of the Chairman Roger Pompeo, M.D., in February, by the two remaining Board members, and the Selectmen, brought the Board to full strength. As acting Chairperson, Marilyn Sweeney was then nominated and elected Chairperson. Lynne Buckley accepted the nomination and was duly elected as Secretary. This Board reflects a complete change in membership in less than one year.

In 1980 the Board had begun revision of its own Rules and Regulations, and this was divided into three parts. Basic Rules and Regulations regarding promotion of health and protection of a safe environment. Livestock Rules and Regulations reflecting the increasingly developed areas, and the reduction of rural open space were addressed. Rules and Regulations upgrading Title V to respond to the unusually high water table and the extremely ledge-filled terrain in Cohasset were adopted by the Board. The Commonwealth is presently reviewing Title V with an eye toward revision through the Advisory Board appointed for this purpose. Several Public Meetings were held on each segment of the Rules and Regulations and the Board believes the revisions reflect the input of the citizenry. Active participation from interested towns, boards, and people numbered about two hundred.

The Board requested and was granted by the Selectmen the transfer of the Supervision of the Sanitary Landfill to the Public Highway Department, headed by Harold Litchfield. The Dump Study Committee did ground work addressing the Board's concern over the life span of the Sanitary Landfill. Joint meetings with the Selectmen, our Board, the Committee, and the Highway Surveyor, culminated in the decision to request funding at Special Town Meeting this fall for a "Hydrogeological" Study to rule out the possibility of pollution to Rattlesnake Run or if that is occurring to correct it if possible or to address ourselves to location and purchase of a suitable alternative site. The firm chosen to perform the study is *E. J. Flynn*, and the timetable established should enable us to come before Spring Town Meeting with a conclusion and phase plan for the future. It is imperative that the Citizens participate in recycling efforts while the Landfill is under orders not to expand laterally.

The Board of Health and the Sewer Commissioners now share a full-time Secretary, a position which allows the office at 43 Elm Street to be covered from 8:30 to 3:30 daily. The full-time Health Agent, Kevin O'Brien, has consistently continued to perform his job within the guidelines of the Commonwealth, and has been at the disposal of the Board as educator and implementor of Board decisions.

A contract with Coastal Community, Mental Health conduit for the state and monitor of patients living in the Community rather than being institutionalized, as well as servicing community people seeking counseling and support, was re-established during fiscal 1980. Thier service faces removal from our budget due to Proposition 2½, and the community's share will undoubtedly be paid for directly by the state. This removal of a needed and worthwhile service, one which encourages individual community support for participation in a regional

mental health system for closer, more humane care, is indicative to the Board of cuts in service harmful to the health of our townspeople at the expense of an admittedly imperfect referendum.

The present Board of Health and its Agent have spent a great deal of time in the past year trying to reduce redundant language, simplify and tailor rules to Cohasset's needs. We have been gratified by your willingness to join us in the decision-making process. Thank you for your support.

Respectfully submitted,

Marilyn Sweeney, Chairperson
Lynne Buckley, Secretary
C. Michael Bliss, M.D.

REPORT OF THE COMMITTEE TO STUDY SPACE NEEDS FOR TOWN OFFICES

Part of the work under Article 16 of the 1980 Annual Meeting is complete. The insulation in the Town Hall attic has been installed and the storm windows are in place. They make the building considerably more comfortable and we expect a 20% fuel saving.

After further study, we decided to replace the older boiler because we learned that the best way to fulfill the Town Hall's various heating requirements (daily use of the offices, intermittent use of the hall and only occasional use of the stage, etc.), would be a zoned hot water system, and that a gas fired Hydropulse boiler would be the most efficient and economical heat source. Hydropulse is a new, highly efficient boiler manufactured by Hydrotherm, Inc., an established manufacturer of industrial and domestic boilers. Their track record is good, and the state has approved our proposal to use them.

This system will heat the entire building. The newer of the present boilers can remain in place as a stand-by and continue as an oil fired unit. It would be connected by appropriate valves to the new hot water system, which would completely replace steam piping and radiators throughout the building.

Because Hydropulse seemed a considerable improvement over the conventional system, and because Hydropulse can only be used with a hot water system, we chose to forego the installation of the conventional boiler rather than spend the \$7300 that it would cost and replace the work so soon after, or, on the other hand, commit the Town to a second best solution to the problem.

Whether we go ahead with this program at the 1981 Annual Town Meeting and whether we go ahead with the installation of the sprinkler system and air movement system as contemplated in Article 17 of the 1980 meeting, for which plans and specifications are ready for presentation, depends upon whether the Town will be able to raise the funds within the limits of Proposition 2½.

REPORT OF THE RECREATION DIRECTOR

It is with distinct pleasure that this report of the Recreation Department activities be submitted to the Citizens of Cohasset.

During the Fiscal Year 1980, July 1, 1979 thru June 30, 1980, over 7,443 individuals participated in Recreation Department programs, activities, and events. This is an increase of 615 people from last year, or a 9.0% increase in the number of individuals served. The essential factor attributed to the increase of participants is the wider spectrum of activities and programs.

Each year the department tries to add new programs to the existing matrix of programs or, in some cases, deleting existing programs which gain marginal response, in favor of a new program which generates a much higher response. We are continually evaluating and updating the existing programs in an effort to provide those programs and services where a demand is indicated. In order to afford residents the best possible services, we are trying to remain flexible, dynamic, and responsive in regard to programming.

Most programs require a minimal program fee charge, ranging from \$4.00 to \$15.00. Also, a 50% reduction of fee granted to second or more children from the same family, registering for a given program, at the same time. During the Fiscal Year 1980, (July 1, 1979 - June 30, 1980), the Recreation Department generated via program fees \$5,625.00. In addition, another \$2,074.43 was transacted through the Revolving Account Fund — a fund designed to make specific programs 100% self-supporting, but may only be utilized within specific and stringent guidelines, precluding the general use of the fund.

Monies collected in Fiscal 1980, represent an approximate 15% offset of the total Recreation Department budget for Fiscal Year 1981.

Passage of Proposition 2½ will directly affect the Recreation budget, and as of this writing, will decrease the present budget by 20%. It is anticipated, however, that programs will not be greatly effected. Rather, reorganization, fee increases, and re-structure of operating procedures may contain the impact of the budget reduction to the administrative areas. A number of avenues are currently being explored to minimize and reduce the impact of a reduced budget.

The Elm's Meadow Skating area has had its most successful year due to weather conditions and the fact that the area has been completed in regard to functional purposes. Lights are on from dusk to about 10:00 p.m. when skating conditions allow. Thanks should go to a number of individuals for their efforts and support throughout the project duration.

Special thanks should go to numerous individuals who have donated much time as volunteer coaches for the Street Hockey, Soccer and Basketball Leagues, as well as the Summer Playground Program. Also, many thanks should go to numerous Town Boards, and Departments as well as a host of individuals for their continuing help and service which we cannot always reciprocate. Also, gratitude should be recognized for the members of the Cohasset Recreation Commission for their continuing donation of time and work: Current members are: Richard P. Barrow, Chairman; Nancy E. Sladen, Vice-Chairman; Alna L. Ekberg, Secretary; James L. Gallagher, Eugene K. Price, Ernest J. Sullivan, and Hamilton T. Tewksbury, Members.

REPORT OF THE COHASSET WIRE DEPARTMENT

I herewith submit the Annual Report of the Wire Department for the year of 1980.

FIRE AND TRAFFIC SIGNALS

Some fifteen thousand feet of fire alarm wire was replaced this past year, leaving only No. Main Street to complete this coming spring. Two new fire boxes were added to the system. All fire boxes were painted and tested. Traffic lights were put in good working condition, and also painted. In the coming year the lights at Sohier and Ripley Road are to be replaced.

WIRE INSPECTION

All work done by electrical contractors was inspected by the Department, and fees turned into the Town Treasurer.

TOWN BUILDINGS

All electrical work and repairs were done by the Wire Department in buildings owned by the Town.

I wish to thank the Board of Selectmen for their cooperation with the Department, and the men who worked with me in this very busy year; a job well done.

Respectfully submitted,

Stephen F. Wigmore
Superintendent of Wire Department

REPORT OF THE COUNCIL ON AGING

Open meetings of the Council are held every second Tuesday of the month at 10:00 a.m. at the Parish House of the First Parish Church. The nine volunteer member board meets to discuss plans for the welfare of a very important segment of the town's population — the elderly.

The following programs and activities are made possible through the efforts of the Council, the Social Service League and over one hundred dedicated volunteers.

Nutrition: The Meals on Wheels program, serving approximately 5,000 meals per year, is supervised by volunteers from the Social Service League. Meals are delivered six days a week to the homes of the elderly who need assistance. Special diets are arranged when necessary. There is a nominal fee of \$1.55 per meal, but financial aid is available. The actual cost of the meals, prepared by the Red Lion Inn is \$2.00. The Council pays the difference.

In addition, lunches prepared at the High School are served every Tuesday during the school year at the Parish House of the First Parish Church at 12:30 p.m. Over 1,300 meals were served by volunteers from St. Anthony's, St. Stephen's, Second Congregational and the First Parish Church. Those interested should call 383-1100 by Monday noon. Lunch is \$1.00.

Transportation: The Rotary Club conducted a drive throughout the town to purchase an eight passenger bus. The response was excellent and the Council wishes to express its deep gratitude to the Rotary Club and the townspeople.

The Senior Shuttle Bus makes approximately 100 trips each week to the shopping plazas, medical offices and various functions. The trips are handled by 40 Social Service League volunteers.

On Sundays another group of nine volunteers drive the bus to the various churches.

For information on the bus schedules consult the Vista or call 383-0821.

Information: A Council sponsored monthly publication, the Visat, is mailed to 325 homes each month. To receive this news of upcoming social, educational and recreational activities, call 383-1100 weekday mornings.

Recreation: Two bus trips a year are sponsored by the Council. The Council works closely with the 60 Plus Club and its 200 members. The 60 Plus Club meets on the third Thursday of the month at the Parish House of the First Parish Church.

Along with ten other South Shore Communities, Cohasset is a participant in the South Shore Home Care, Inc., 140 South Main St., Cohasset. This corporation is under aegis of the Department of Elder Affairs, both State and Federal, and is concerned with all aspects of care for the elderly. This year the Social Service League was the recipient of a grant from the South Shore Home Care.

Respectfully submitted,

Rev. John Keohane, Chairman
Mrs. Helen Barbary, Housing Representative
Mrs. John Daunt, Secretary
Mrs. Charles Donovan, Pres. 60 Plus Club
Mrs. W. Howard Enders, Chrm. Tuesday Luncheons
Mr. Conrad Ericsson, Shuttle Bus Coordinator
Mr. George Fellows, Treasurer
Mrs. Herbert Morse, Chairman of Vista
Mr. John Mullett, Publicity

REPORT OF THE HARBOR COMMITTEE

In 1980 the following events affected both harbor operations and plans for the future:

- 1- A master plan for improvement of the harbor was completed with funds from the state office of Coastal Zone Management and matching Town funds.
- 2- The breakwater reconstruction was completed bringing the walls back to their original height and adding a small breakwater to the opposite side of the harbor entrance.
- 3- Reconstruction of the dolphin range lights along the channel was begun to correct a serious problem resulting from the deterioration of these navigation aids.
- 4- Implementation of the master plan schedule was begun with submission of a grant application to the state office of Coastal Zone Management for the design of the fisherman's pier reconstruction and expansion.

A continuing improvement of the appearance and operating efficiency of the harbor was much in evidence in 1980. The new Sailing Club facilities, the Old Salt House pier reconstruction, and the new breakwalls are evidence of concern and effort on the part of Town officials and private organizations, as well as continuing and effective Town support.

Respectfully submitted,

Charles G. Fink, Chairman
Cohasset Harbor Committee

REPORT OF THE CAPITAL BUDGET COMMITTEE

The responsibilities of the Capital Budget Committee are set forth in Article V, Section 3 (c) of the By-Laws of the Town which were adopted April 7, 1979. It reads as follows:

“The Capital Budget Committee shall review and investigate capital budget requirements of all Town departments and evaluate their needs, recommending priorities for a five-year period. They shall report their findings and recommendations to the Board of Selectmen, the Advisory Committee, and the Town Meeting”.

In meeting its charge the Committee met thirteen times during 1980 to review, investigate and evaluate capital requirements of various Town departments and submitted its recommendations to the Board of Selectmen, the Advisory Committee and to the Annual Town Meeting of April 5, 1980 and Special Town Meetings of February 14, 1980 and November 13, 1980.

The Committee prepared and distributed to those citizens attending the Annual Town Meeting a schedule of capital items expended or committed for the years ending June 30, 1978/1988. The report appeared to be well received by and of assistance to those present. The Committee intends to continue and expand upon this report for the 1981 meeting.

Respectfully submitted,

William E. Kelley, Chairman

REPORT OF THE TREE AND PARK DEPARTMENT

During this year, the Tree and Park Department continued its spraying program. It expects alot of problems with gypsy moths and advises homeowners to get in touch with private contractors regarding gypsy moth. The Town does not spray on private property..

Roadside clearing and tree maintenance is a year-round program.

I would like to thank the men of the department and of other departments for their cooperation through the 1980 year.

Respectfully submitted,

Peter G. Laugelle
Tree and Park Superintendent

REPORT OF THE HIGHWAY DEPARTMENT

The following is a summary of work performed by the Highway Department during this past year.

The department completed a very difficult installation of drainage on Sohier Street. This project involved a great deal of blasting, and took quite some time to complete. In all, 911 feet of 12" pipe, 143 feet of 10" pipe and nine new catch basins were installed. Now that this drainage project has been done, and the temporary road has had a chance to settle, we plan to resurface the entire area this coming year. The other major drainage project was on Nichols Road where we installed 161 feet of 10" pipe and five new catch basins. In addition, many other catch basins in various parts of town were repaired or completely replaced, as needed.

Almost one full mile of mix-in-place was installed. This work was done on parts of Nichols Road, King Street and various other sections of streets and roadways.

We resurfaced, with Type I bituminous concrete, 5,280 feet of Beechwood Street and 4,000 feet of Atlantic Avenue. This work was financed by monies raised at the annual Town Meeting, supplemented by aid from the Commonwealth. Approximately 8,000 gallons of MC800 hot oil was used as a surface treatment on various roadways in town.

In June, we took delivery of the front-end-loader which was voted at the last Annual Town Meeting. It has been a valuable addition to the department, and has increased our efficient use of equipment dramatically. I would like to take this opportunity to thank everyone who supported the purchase of this valuable piece of equipment.

On July 1, the Highway Department took under its jurisdiction the management of the Disposal Area. At the time of this writing, the area was undergoing a hydrology study. The outcome of this study will determine the future of the present disposal area. We all are aware of the problems facing us concerning the landfill operation. We are under state mandate to correct the present situation, but only time and more studies will determine what steps we will have to take, and what cost to the Town.

During the course of the year, all roads were swept several times, and street lines repainted where needed. All fences were painted, repaired, and where needed, replaced. Many street signs were repaired, and in most instances, replaced. Due to an increase in vandalism, many more signs had to be replaced this year. This was accomplished at a good deal of expense to the Town.

At this time I wish to thank the men of my department for their continuing cooperation. I also would like to thank the members of the various town departments and boards for their generous support over these past three years.

Respectfully submitted,

Harold W. Litchfield, Highway Surveyor

REPORT OF THE BUILDING DEPARTMENT

The following is a report of the Building Department for the year 1980:

Building permits issued	396
Building permits voided	4
Fees returned to applicant	\$5.00
Building permit fees paid to treasurer	\$7,564.00
Estimated cost of all projects for which building permits were issued	\$3,395,384.00

A breakdown of building permits is on file in the Building Department Office.

Buildings inspected for group occupancy	43
Inspection fees paid to treasurer	\$700.00

Plumbing permits issued	138
Plumbing fees paid to Treasurer	\$2,388.00
Plumbing Inspectors paid	\$1,530.00

Gas permits issued	115
Gas fees paid to Treasurer	\$1,456.00
Gas Inspectors paid	\$1,345.00

TOTAL FEES COLLECTED by Building Department	\$12,108.00
---	-------------

To avoid needless expense and even tragedy, the public is urgently advised to follow instructions for the correct installation of stoves and their proper use. Inspections of installations should be made by the Building Inspector who will issue the homeowner a Certificate of Inspection for conformance with the State Building Code.

The Fourth Edition of the State Building Code came out in October 1980 and is in the process of being reviewed for changes.

I would like to take this opportunity to thank all Town Departments for their cooperation and assistance during 1980.

Respectfully submitted,

James A. Litchfield
Building Inspector
Zoning Officer

REPORT OF THE CONSERVATION COMMISSION

The Conservation Commission held many hearings during the year on applications under the Wetlands Protection Act, Chapter 131, Section 40. The Commission continues to spend a major portion of its time administering the Wetlands Protection Act.

There was one resignation in 1980, Joann Ford. We wish to extend to her our thanks for the contribution she made to the work of the Commission during her term. We welcome a new member, Robert Maki.

The Commission continues to serve the town in a regulatory and advisory way. It is the only official town agency with the specific duty of protecting our natural resources.

Respectfully submitted,

Patricia Buckley, Chairman
John Bryant
Janet Ditmar
John Hubbard
Robert Maki
Peter O'Loughlin
Austin O'Toole

REPORT OF THE COHASSET HOUSING AUTHORITY

The sixty-four apartment community for the elderly and handicapped had five tenant changes in 1980. In total there have been twenty-five tenant changes since the complex opened in January 1975.

Improvements were made in the walkways and railings to meet the state requirements and a Certificate of Occupancy was issued to the Authority by the town Building Inspector, James A. Litchfield.

Mrs. A. Patricia Barrow retired upon completion of the five year term to which she was elected and Mrs. Marquerite Libby was elected to fill this vacancy.

The Authority expresses its thanks to all of the town organizations and individuals who have helped this community in many ways during the year.

Respectfully submitted,

Yolanda Baccari, Assistant Secretary
Kathleen M. Conte, Treasurer
Marquerite Libby, Vice Chairman
Lloyd W. Prescott, Assistant Treasurer
George W. Benedict, III, Chairman

REPORT OF THE COHASSET HISTORIC COMMISSION

ARCHIVES

Cohasset is indeed fortunate to have had David Wadsworth work on the town archives. During his one and one-half years of effort, he has gathered, inventoried, set up the vault and catalogued the records up to 1930. Although there is still more work to be done, the major undertaking is completed. Many thanks for a job well done.

TOWN CLOCK

The town clock is now completed and is working very well. The mechanical parts of the movement have been overhauled and put into excellent condition. The clock dials have been repainted and fitted with new numbers and hands.

LIGHTHOUSE KEEPERS OFFICE

Lot Bates and his son did an excellent job of restoring the sills, floor joists, reboarding, facia boards and clapboard of the Lighthouse Keepers Office on Government Island. They did far more work than they were ever paid to do and we are sure the Town appreciates their efforts. This year we hope to have the window sashes replaced and the front door rebuilt.

INVENTORY

David Wadsworth has continued to research and inventory more buildings in the downtown and harbor areas. Although this is an ongoing project, we have completed the major task. We would like to inventory the Victorian summer estates in the future.

FUTURE PROJECTS

We would like to have some parts of Cohasset placed on the National Registry of Historic Places in America; Historic Harbor walk in memory of Francis Hagerty; signs to identify the little-known historic sites in Cohasset; a historic walk through Witney Woods identifying places of interest. We are also concerned about the Beechwood Fire Station being demolished. We would like to see the building saved from destruction.

NOTE

The primary purpose of the Cohasset Historic Commission is to help preserve the character and flavor of the Town. We welcome concerned citizens to our meetings and encourage public participation. We meet the second Monday of each month.

Respectfully submitted,
Betty Enders, Secretary

EQUIPMENT

The first diesel powered pumping engine was placed in service in July of this year. This unit carries 600 gals. of water, approximately 3,000 feet of hose, has good equipment stowage compartments, and provides the driver protection and visibility, has good maneuverability and adequate power for quick acceleration. All important factors in the success of its operational life.

The motor of Engine 2 was removed, rebuilt and re-installed by the department mechanic. At a considerable saving to the town. This should aid in extending the life of this unit for ten years.

All other department vehicles received lubrication, tune-ups and adjustments to keep them in good operation order.

Before the end of this fiscal year, the program of rehabilitating and updating the self contained breathing apparatus should be completed. This will bring all of these units up to current standards, and make them all interchangeable and compatible.

PERSONNEL

The Table of Organization of the Fire Department calls for twenty-eight officers and men, assigned to four groups of seven men each.

Due to the retirement of a Captain and one firefighter the number of available men has been reduced to twenty-six, making two of the groups short a man.

Further reductions in manpower, as indicated by Proposition 2½, will make it impossible to properly cover the required fire apparatus and ambulance. Your request for a 15% budget reduction results in the loss of six men — greater reductions in manpower than this will require the elimination of the emergency ambulance service. This is due to a shortage of men and trained E.M.T.'s.

STATIONS

The stations at Beechwood and North Cohasset remain the same. The problems of size, condition and location remain unresolved, requiring serious consideration in the near future.

GENERAL COMMENTS

It should be noted at this time that the department lost the services of two valued employees, due to retirement.

Captain George E. Casey	Appointed Firefighter	2. 6.50
	Appointed Captain	6.13.57
	Retired	7.31.80
Firefighter		
John F. Thompson	Appointed Firefighter	2.23.56
	Retired	7.31.80

Both of these men served the department with honor and dedication.

CONCLUSION

I would like to thank the citizens of Cohasset for their support and cooperation. To the Honorable Board of Selectmen, other department heads and department members, and all committees and boards for their understanding, guidance and cooperation, my sincere thanks.

To all of the Officers and Men of the Fire Department for their dedication and performance of duties my sincere thanks and appreciation.

Respectfully submitted,

Charles Piepenbrink
Chief of Fire Department and
Forest Fire Warden

REPORT OF THE SCHOOL COMMITTEE

As a School Committee we have always believed that education is a debt which the present generation owes to its future citizens, one proven way in which the democratic process will continue to be strong and build an aware electorate. We realize, however, that the electorate has spoken and as a result we must all learn to do more with less.

The 1980 school year has brought many local as well as state-wide changes for the Cohasset School System. Many fine educational programs and concerns which were developed in 1978 and 1979 have been incorporated into our school system. During the fall of this year the Committee and the Administration began to grapple with the realities of the Chapter 580 mandate known as Proposition 2½. Obviously Proposition 2½ has brought a completely new dimension for Massachusetts schools. As a result of this legislation many of the answers to pressing questions of educational priorities are just beginning to surface and the months ahead will find us expending much of our energy in the ordering of our educational priorities which will set the course that the "Skippers" will follow for many years to come. That course will be a challenging one.

Our Town has always been proud of the education of its young people, their success in colleges of their choice and careers of their interests. We wish to take the opportunity to publicly pledge to the citizens and students of Cohasset that we will do everything within our power to maintain the quality of our education while learning to live within the limits of our fiscal appropriations. In doing this we will adjust those programs which, in our judgment, are the least detrimental to the quality education of our student body.

Our reductions will be carefully studied and given priority in order to select those items which do not directly affect the delivery of educational services to children. These items will be the first to be scrutinized for either elimination or reduction. Your School Committee realizes the value of a quality public education for all individuals but at the same time we know that our Town is a highly academic community where a very large percentage of young people go on to colleges and post-secondary education. Therefore, we will do everything in our power to develop methods to keep our advanced placement, honors, and college preparatory programs functioning at a competitive level which will continue to ensure our student body acceptance at the colleges of their choice.

We also accept the responsibility of providing as much detailed information concerning these decisions to the Cohasset Community in order that they will understand and hopefully accept the changes which must come about because of this new State mandate. We are determined to proceed in an objective and straightforward manner, remembering first and foremost the educational well being of the students for whom we are legally responsible.

Locally, the Committee has also faced "the challenge of change" and during the spring and summer months were involved in probably the most important task of our School Committee careers, the selection of a new Superintendent of Schools. We certainly would not have been able to meet the deadlines which

we set for ourselves without the tremendous effort of the members of the Screening Committee who worked so many hours in assisting in the details necessary. The Screening Committee was chaired by Mr. John J. O'Donnell, Jr. and included: Mr. Julian S. Hartwell; Mr. Stewart S. Sargent; Mrs. Paul E. Carlson; Mrs. Edmund Lahage; Rev. John M. Benbow and Mr. M. James Shumaker. Our hard work came to a happy end when we appointed Eugene C. Crowell as Superintendent on August 18, 1980.

We wish to take this opportunity to welcome to our community, Mr. Eugene C. Crowell who has accepted the responsibility of leading our educational system through this trying period of fiscal adjustment.

The School Committee wishes to publicly acknowledge and thank the efforts of Mr. John Raftery for serving the school system as Acting Superintendent during the interim period. Mr. Raftery, in addition to performing his own duties as Business Manager, was extremely helpful to the School Committee during the search process and kept the school running smoothly in the changeover of Central Office Administrations.

During our regular meeting on December 1980, the School Committee accepted and approved the academic standards developed by our Administration and Citizens' Committee for the improvement of the basic skills of math, reading and writing. A special thanks to Mrs. Diana Kornet for acting as the School Committee's liaison with the committee as well as working with this group in completing its responsibilities. In doing so we have brought our system into compliance with the State mandates governing the Improvement of Basic Skills. We will continue to use both these standards and our local and standardized tests to improve the quality of all of our education. I offer thanks to all persons involved in that accomplishment which can not help but result in an overall improvement in our process.

We are also proud of our new Health Education Program and the appointment of Mr. Michael Gill as the Health Coordinator/Teacher for grades K-12. He is already making a notable contribution to the well being of our students and community. A sincere word of thanks is in order for the time and excellent efforts of the Health Advisory Committee, which worked tirelessly in making the long-needed development a reality.

During the year it became obvious to the School Committee that an updating of all existing job descriptions was necessary in order to ensure the proper delineation of authority as well as the description of responsibility. Therefore, a sub-committee directed by Mrs. Gjestebj and Mrs. Walsh worked diligently in re-writing all of our job descriptions. Those descriptions were accepted by the School Committee during the year and are proving invaluable as we swing into the responsibilities of Chapter 580.

In closing, I would like to express my thanks to all the groups and individuals who have contributed to the success of the Cohasset Public Schools. A continued vote of thanks to the teachers and administrators for a job well done in keeping our educational standards high. To my fellow School Committee col-

leagues I am afraid to say that the year ahead will demand an even higher measure of effort and cooperation, but I am confident that by working together in the manner we have over the past year a way will be found to keep intact that quality school system of which Cohasset is so justly proud.

Frank W. England, Chairman
Cohasset School Committee

REPORT OF THE SUPERINTENDENT

It is with a great deal of pleasure and anticipation that I submit my first Annual Town Report to the Cohasset Community.

As most of you know, I accepted the Superintendency in October of 1980 moving from a North Shore Community where I had served more than twenty years as a Central Office Administrator and Superintendent. I consider it a privilege and an educational challenge to have won this opportunity. Your community is well known for its high academic standards, its support of education, and its fine student body and staff. In addition, to be living in such scenic South Shore surroundings is by no way a distraction from the situation. Because this is my first formal report to the Town I feel that I would like to briefly describe my Educational Philosophy in order that you may have a benchmark against which to judge my educational style.

I have long been an advocate of a well-balanced, comprehensive program for public education which will meet the individual needs of all of the students enrolled in the schools across our land. Only through such programs can the American goal of equality of educational opportunity be realized. Education continues to be the paramount force in providing the public with a means of social and economic mobility which is so important to a growing nation. If the American way of life is to survive in this world of clashing ideologies, the work of the public schools must regain the confidence of the American people and be reinstated as a national priority.

In these times of economic crisis, the comprehensive nature of our schools will be seriously threatened; the arts, the humanities, vocational and avocational programs, athletics; in short, most of the affective learning needs of our students can be lost or so diluted as to become ineffectual. These affective learning patterns, I believe, blend with cognitive skills to produce the true character of American public education and educate an aware electorate which continues to contribute to our nation's strength. Our goal of educating "all comers" must not be put aside. Each student's needs and personal learning styles must continue to be addressed by meaningful programs.

As Franklin Delano Roosevelt so aptly said, "Public education provides the raw material for the American Way of Life and in the long run what our teachers do across our land is perhaps more important than the work that we do here at the White House even in this time of national stress." It is ironic that in a time when the public needs our help with so many new social problems and concerns, that we must retrench and limit our efforts so drastically. We must work toward an "economy model" of comprehensive education, striving for quality even though it must be done within limited means.

Speaking from the questionable base of two months of experience in your community, I will try my best to report to you the educational accomplishments of your school system during the 1979-1980 school year.

A Projection of Student Enrollment

In order to plan for the next five years of necessary change for the Cohasset School System, I have prepared the following enrollment projection. My fiscal year 1982 budget will be based upon these estimates and in a very real way have influenced the assumptions which we have made as to school plant and facilities as well as program design. These projections show an average enrollment decline of 70.4 students per year over a five-year period. The method used in the projection is known as the cohort survival method of straight line projection. One significant fact that we will watch closely is that the Osgood School student population seems to be stabilizing and remaining constant. Our decision to leave the Osgood open was partially based on this information. We will be watching this trend closely in the months ahead for our long-range planning.

Students at the Junior/Senior High School continue to score impressively on both our locally contracted tests and our nationally normed Science Research Ass. (SRA) Achievement Test. In December of this year, the School Committee adopted demanding standards in math, reading and writing for the newly created State-mandated Improvement of Basic Skills Program. We feel that by emphasizing these skills at all levels of our curriculum that we will ensure a continued commitment to excellence in the fundamentals of the 3 R's. This program, which tests our student body annually, will monitor student progress for all to see and hopefully reinforce the public's confidence that the Cohasset School System is truly dedicated to the elimination of functional illiteracy.

In the exciting field of computers, the school system has added to a program of "software" and "hardware" designed to make all of our student body cognizant of computer terminology and the learning opportunities of these amazing work programs. This perhaps may be the new frontier of American Education. The computer has revolutionized our world. Information processing is vital in our complex society and young people must be literal in and knowledgeable of computer opportunities. Programs such as our new reading laboratory, our humanities programs, our advanced and honors courses, and opportunities in the arts and music continue to deliver quality services to young people. Our Special Services Department with its various individualized programs for the physically and educationally handicapped is meeting its responsibilities under Chapter 766 as well as the national mandates of the Federal Law 94-142. Mr. Stephen Hart continues to "watch dog" this operation to make sure that needed service is extended to deserving individuals in the most economic method possible. In these difficult times of limited means many are prone to quickly criticize the expenditures of this mandate, but speaking from experience in comparing the costs and degree of services provided by other communities, I believe that Cohasset has a realistic program which is efficiently and economically run

by a competent, innovative Administrator. We must all remember that children with special needs have just as much right to quality, equal educational opportunities as normal students. It is unfortunate that this education, because of its very nature, is more expensive and therefore seems to be disproportionate in comparison with cost per pupil figures in our regular day programs. Included for your information is our Special Education report for December 1, 1980.

Elementary Education – grades K-6. I am impressed by the primary and intermediate beginnings of Cohasset students. The warmth and family atmosphere of the Osgood School is a credit to the Principal and staff and gives primary youngsters a strong start in the fundamentals of reading, writing and arithmetic.

The intermediate level's task is to begin the departmentalized process. It is a period of rapid physical and intellectual growth for the students and an innovative and talented staff brings not only the standard programs expected from a middle school but programs for special students, the gifted/talented, and a variety of out-of-door, music, and art education experiences. The school is professionally and strongly lead by a competent, experienced Principal.

In sports and student activities, the Skippers have had winning fall seasons. As their Superintendent I have never seen our football team lose. Their 5/4 record was the best in nine years and in hockey, field hockey, track and basketball, townspeople are seeing good competition from well coached teams.

All of course is not sweetness and light. There is much for all to do in the years ahead. Alcohol and drug abuse continue to be a real concern of both parents and school officials. We are working with our Police Department and its new Chief, John DiBassio, and the cooperation which we are receiving from officers like Sgt. Jack Rhodes and our new Health Coordinator, Michael Gill, could not be better. Town officials and Advisory Board members are cooperating with us in the problem of Proposition 2½. A special thank you to Town Accountant, William Signorelli, for current information on Chapter 580 without which budget preparation for next year would be impossible. Massachusetts public education, however, will find a way to overcome these difficulties. That is the American way. However, the cooperation and understanding of all of us will be necessary to accomplish this end. The transition period for those adjustments necessary under Proposition 2½ will be hectic and at times chaotic. We ask that all remember that none of the necessary reductions in our existing programs are the School Committee's, my own, or our staff's recommendations but action that we must take in reaching our mandatory levy. We will cut services which we feel will least damage the education of the Cohasset student body.

Eugene C. Crowell

REPORT OF THE TRUSTEES OF THE PAUL PRATT MEMORIAL LIBRARY

In an institution of the breadth and depth of the Paul Pratt Memorial Library, keeping up-to-date is basic to maintaining high standards. Many of the library's 1980 activities were in this category and are a matter of pride to the trustees and staff.

Changes to Stay Up-to-Date

Symbolic was the town meeting's vote to abandon dual names for the library (Cohasset Free Public Library and the Paul Pratt Memorial Library) and agree on the Paul Pratt Memorial Library. Retention of that name was a requirement of the building's gift to the town in 1975.

A new brochure describing the library was produced by the trustees, with the printing cost generously provided by the Friends of the Library, Inc. The brochure emphasizes the library's commitment to helping the user find or obtain whatever material he needs. The brochure was distributed to all households with the town report and arrangements have been made for distribution to new residents.

The budget for Fiscal Year 1981 addressed gradual erosion of the library's book-buying ability over several years, due mainly to inflation, and restored the effective purchasing power for FY '81 to FY '74 levels.

Attractive new landscaping for the front of the library was the combined gift of the Cohasset Garden Club (\$800 for plant material), Barbara M. Power (landscape design), the Cohasset Tree Department (help in planting), and the trustees (watering during the summer).

Evaluation of library personnel's job classifications and salary scales, relative to other libraries and other Cohasset departments, resulted in requests to the Personnel Committee for reclassification of library clerks from the category S-1 to S-4. It was requested that the library custodian classification be included in Schedule 4, rather than Schedule 5.

An energy audit by Eastern Edison Co. will result in a capital outlay request to insulate the attic and cupola floors in Fiscal Year '82.

Long-term planning discussions have included the possibility of future investment in an automated circulation control system and in a book theft prevention system. Either addition would be several years away and will continue to be evaluated.

Emily B. Gleason Honored

The retirement of Emily B. Gleason after 49 years as a trustee was honored by a resolution at town meeting, as well as contributions by her many friends towards the gift to the library of a dictionary stand in her honor.

Proposition 2½

Budget preparation for Fiscal Year '82, with possibilities of a 15% reduction as a result of Proposition 2½'s enactment in November, has taken considerable staff and trustee time. The resulting product has been carefully constructed and balances many factors. It is doubtful, however, that it will please many.

Cohasset's library is the result of truly community-wide interest and support. Two groups, however, add particularly to its special quality: first, its marvelous staff, headed by Richard E. Hayes, and, second, the Friends of the Cohasset Library, Inc. under Pat Gwinn's leadership. The Friends organize the library's impressive number of volunteers, in addition to being the source of many generous gifts of money and time. To both staff and Friends we are all grateful.

In-library use of materials is estimated to equal the loan rate.

Interlibrary loan requests to other libraries: 694 requests; 528 (76%) filled.

Staff as of January 1, 1981

Fulltime: Richard E. Hayes, Chief Librarian; Susan M. Watrous, Evelyn B. Wood, Librarians.

Parttime: JoAnn Mitchell, Marilyn T. Pope, Librarians; Susan M. Pope, Paraprofessional; Barbara C. Burnham, Nancy Knight, Lucille Roycroft, Clerks; Robert Pattison, Custodian; Samantha Barrett, Gerald McNabb, Lori Ann Stobart, Pages.

Friends of the Cohasset Library, Inc.

A 250 member organization, working through its 13 member board of directors, has greatly aided the library in the following ways: passes to the Museum of Science, Children's Museum, Museum of Fine Arts, New England Aquarium and Museum of Transportation (\$1,030); library book fund (\$250); children's summer reading incentive program (\$200); library brochures (\$625); adult program in March, by John Benbow, member of the White House Conference on Libraries and Information Service; children's program in April, by Joan Drescher, children's book illustrator; annual luncheon in May for library volunteers; Christmas wreaths.

Volunteers

Recruited and scheduled by the Friends of the Library, generously gave:

Service desk and office

2,516 hours

47 nursing home visits (903 items loaned)	188 hours
Story-telling programs	51 hours
Junior volunteers (students)	700 hours
Total volunteer help	3,455 hours

Volunteer help averages 66 hours per week, the equivalent of almost two full time employees.

Gifts

Gifts not mentioned elsewhere which were gratefully received include: Girl Scout Troop 581, \$50 for children's materials; Community Garden Club, \$450 for a gardening encyclopedia; several gifts to the memorial book fund; and numerous gifts of new or used books and magazines which were added to the collections or sold in the Friends of the Library book sales.

Children's Services

Children's services are available at all hours the library is open, with professional librarians on duty during all out-of-school hours. A collection of the best in children's materials is continuously developed. Of 1,130 new books added this year, about half were to replace worn-out copies of classics. Special programs included 37 story hours and film programs with total attendance of 739. In the summer reading incentive program, 115 children read 2,260 books. The Friends of the Library gave free paperbacks to 79 children who read 20 or more books. Achievement certificates were awarded to 108 who read 10 or more books. In-library use of children's filmstrips and cassettes is estimated to be double the loan rate.

Cooperation with the schools included these activities: on notification by teachers, reserved collections were provided at the library to serve class assignments; 53 collections, totalling 560 books, were loaned to classroom teachers; staff participated in school department planning for a federal grant, visited 118 classes for story-telling and library orientation, conducted public library orientation tours for 13 classes; and presented 11 film programs in the schools to a total audience of 2,148 children.

REPORT OF THE SOCIAL SERVICE LEAGUE BOARD OF HEALTH NURSING SERVICE 1981

The Social Service League under contract with the Board of Health provides nursing services to the residents of the town. These services include: Keep Well Clinics, Well Child Conferences, Flu Immunization Clinics and Hypertension Clinics. Also provided are: home visits and "walk in" office hours for health promotion and disease control.

In recent years the attendance at the Well Child Conferences has continued to show a downward trend. The residents are apparently utilizing local pediatricians who are available both in times of sickness and health to meet health needs. The other area which continues to show a decrease is communicable disease follow up. This is due to the fact that many cases are not being reported to the local and state Boards of Health by the area physicians.

The other programs are well attended especially the Keep Well Clinics, which have been expanded to residents of all ages.

We are very pleased that more people are taking advantage of the office hours for blood pressure monitoring and health consultation.

It is our wish that even more residents would make use of our existing programs and services.

Our thanks to the volunteers of the League who have provided many hours of their time to assist with the clinics.

We will continue to work cooperatively with Mr. O'Brien and the Board of Health to provide nursing services geared to the health needs of the residents.

The Board of Assessors reports that the revaluation of the real property is underway, and that the Assessors' Department will endeavor to make the implementation of "Proposition 2½" as smooth as possible.

REPORT OF THE BOARD OF WATER COMMISSIONERS

Mr. Robert W. Jackson was elected to the Board in April replacing Mr. John Hobbs who served the Department faithfully for three years. Mr. Jackson has proven to be a valuable member of the Board.

The continued growth of the Town is reflected by the twelve new accounts activated this year. Total distribution for the year shows an increase of approximately 10,000,000 gallons.

Department personnel installed sixty feet of new 6" ductile pipe across 3-A at Schofield Road, plus an additional sixty feet of 6" A/C pipe on Schofield Road. Eleven old services were replaced throughout the town. Three hydrants damaged by motor vehicle accidents were replaced. Two new hydrants installed by contractors in new developments.

A comprehensive Water Distribution Study has been completed. This report complete with maps will give the Commissioners an excellent tool for planning future replacement of older water mains and the expansion and improvement of our water distribution system and enhances the Town's opportunity to take advantage of future Federal & State Grant programs.

The Board would like to take this opportunity to extend their appreciation to retiring Superintendent Edwin Pratt for a job well done and extend the best wishes in behalf of all past Commissioners and the entire town with his new home in Florida.

The Board, at this time, would like to extend their thanks to all other Town Officials and Department Heads and Committees for their cooperation and support. We especially wish to acknowledge all Water Department Personnel for their devotion and loyal support and we pray for the speedy and full recovery of Marion Douglas.

Respectfully submitted,

Board of Commissioners
William J. Montuori, Chairman
Lot E. Bates, Clerk
Robert W. Jackson

REPORT OF THE BOARD OF SEWER COMMISSIONERS

In the late fall 1980 an agreement between the Town and its consulting engineers, Metcalf and Eddy, Inc., for the design phase of the Sewer Project was submitted to State and Federal Authorities for approval. This submittal was a result of many months of negotiation with assistance provided to the Commissioners by the office of Town Counsel. Recommendations for the agreement were sought from the Selectmen, Advisory Board, Town Accountant, and the Citizens Advisory Committee. It is our understanding that the Grant Application for the design will not be approved before April 1981.

During the year the Commissioners have visited wastewater treatment plants in Massachusetts and Connecticut to view processes and equipment in preparation for the related decisions for the new plant. Last spring the aerial photography necessary for the design of street sewers was completed. During the fall, current meters for the outfall study were installed and monitored. Dye studies will be done in the summertime.

The State ban on additional sewer connections remains in effect. For this reason several requests, which would have increased sewage flow at the present plant, had to be denied. One new connection was permitted by the State after the local Board of Health declared the private septic system to be a health hazard.

The Board voted to continue the Citizens Advisory Committee on Site Selection under the new title of Wastewater Advisory Committee. We know their assistance in the entire project will prove invaluable.

The Board would like to thank especially the following persons: Mr. Edwin Pratt, who retired this year as part-time Superintendent, for his help in the transition to a separate and newly elected Board; the plant operators who extend much effort in keeping the old plant functioning; our Clerk; and Mr. Richard Henderson, Assistant Town Counsel, who has given tirelessly of his time.

Respectfully submitted,

Janet M. Dagget, Chairman
Joseph M. Gwinn
Gerard Stanton

REPORT OF THE TOWN ACCOUNTANT

To the Board of Selectmen and Citizens of Cohasset:

Submitted herewith is my annual report for the fiscal year ended June 30, 1980. This report is in accordance with Mass General Laws Chapter 41, Section 61 and includes the following:

- (1) Statement of net revenues received and other Receipts (Exclusive of Revolving Funds).
- (2) Report of Appropriations, Expenditures and Encumbrances.
- (3) Statement of Revolving Fund Accounts.
- (4) Summary of Expenditures and Encumbrances and Cash Summary.
- (5) Balance Sheet of General Accounts.
- (6) Statement of Trust Funds.
- (7) Balance Sheet — Deferred Revenue — Sewer Assessments.
- (8) Statement of Long-term Debt.

The following are unpaid bills for Veterans' Assistance as of June 30, 1980. An article requesting funding was voted at the reconvened session of the Special Town Meeting October 28, 1980 held on November 13, 1980.

1. Massachusetts General Hospital	\$11,758.83
2. New England Deaconess Hospital	109.60
	<u>\$11,868.43</u>

I have just recently been notified of the unpaid bills of prior fiscal years for repairs to Hydrants. The bills are from the Hingham Water Company and are as follows:

Sept. 30, 1975	\$1,160.29
Dec. 30, 1977	392.17
July 31, 1978	1,149.09
	<u>\$2,701.55</u>

There will be an article in the warrant for the Annual Town Meeting April 4, 1981, requesting funds to pay these bills.

Respectfully submitted,

William S. Signorelli
Town Accountant
